

Recent participants of the Living Waters Leadership Training had this to say:

"God made me aware of some things I didn't even realize I needed healing in. I am so thankful for the Living Waters model that fully relies on the work of the Holy Spirit; He reminded me to just be obedient in my journey and He does the rest. I'm excited, hopeful, thankful!"

"I now see that loving my wife is coupled with embracing the cross and finding life through the wounds of Jesus. I have embraced my authority as a man and husband for the upholding of my marriage"

"In life I have often felt shameful and hidden away, living on the periphery or just not fitting in well. But I felt fully welcomed, understood and empowered to be among these participants, leaders and staff. "

"He has given my heart new life. I had no idea that my spiritual life was at a stand-still. Going through the teachings and prayer time helped me reach out and see the importance of community."

"One very, very important gift of this week was Living Waters' ecumenical make-up. It truly strikes me that this is essential, especially in our dark and troubled times. We cannot afford to be petty or small minded. Catholics and Protestants must come together in all ways possible, mindful that 'love covers a multitude of sins' "(I Pet. 4:8)

"The integrity and authority displayed in the leadership is exceptional - thank you!"

"I thought I was coming to learn to help others, I quickly realized God had more for me."

"I came this week to receive training to start a Living Waters group in our church, but what I got was so much more than training. The healing I received this week is just the beginning of a new life for me and my family."

"I really appreciated the safe atmosphere that was created for me."

"This week surpassed all of my expectations - and met all of His!"

"This training experience has been a deep healing in not only the outward manifestations... but the hurts, fears, deep seeded holes of being, parental wounds, and abuse. Everything was turned on its head! In just a few days I unloaded a lifetime of sexual brokenness, homosexuality, emotional dependency, and major boulders of shame. The Lord has begun a Great work in me!"
